Most patients that come to our office have one of two objectives in mind concerning their health care. Some patients come for symptomatic relief of pain or discomfort (Relief Care). Others are interested in having the cause of the problem as well as the symptoms corrected and relieved (Corrective Care). Your Doctor will weigh your needs and desires when recommending your treatment program.

Please check the type of care desired so that we may be guided by your wishes whenever possible.

☐ Relief Care ☐ Corrective Care ☐ Check here if you want the Doctor to select the type of care appropriate for your condition

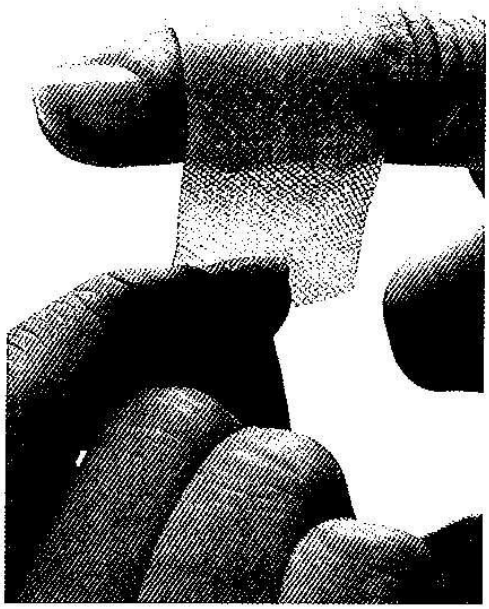
If this is an accident related injury, please fill out the Accident Form. Thank You!



Relief Care
Relief Care is that care necessary to get rid of your symptoms or pain, but not the cause of it. It is the same as drying a floor that was getting wet from a leak, but not fixing the leak.

Corrective Care
Corrective care differs from relief care in that its goal is to get rid of the symptoms or pain while correcting the cause of the problem. Corrective care varies in length of time, but is more lasting.

I understand and agree that health and accident insurance policies are an arrangement between an insurance carrier and myself. Furthermore, I understand that the Doctor's Office will prepare any necessary reports and forms to assist me in making collection from the insurance company and that any amount authorized to be paid directly to the Doctor's Office will be credited to my account on receipt. However, I clearly understand and agree that all services rendered me are charged directly to me and that I am personally responsible for payment. I also understand that if I suspend or terminate, any fees for professional services rendered me will be immediately due and payable.

I hereby authorize the Doctor to treat my condition as he or she deems appropriate. It is understood and agreed the amount paid the Doctor, for x-rays, is for examination only and the X-ray negatives will remain the property of this office, being on file where they may be seen at any time while a patient of this office. The patient also agrees that he/she is responsible for all bills incurred at this office.

CONSENT FORM

I _____ certify that Dr. Aaron Orpelli does not claim to cure any illness or disease with NAET® (Nambudripad's Allergy Elimination Techniques).

I understand that NAET® is not a medical diagnostic procedure and therefore does not diagnose a disease. Rather, NAET® gives the practitioner an indication as to the substance(s) to which the patient may have sensitivity. NAET® uses various standard medically proven diagnostic measures and modalities (Allopathic, chiropractic, kinesiological, and acupuncture) to diagnose the patient's condition. The premise behind NAET® is to desensitize a patient to a substance(s) using allopathic, chiropractic, acupuncture/acupressure, nutritional, and kinesiological principles so that the patient may not experience hypersensitive symptoms when they have future contact with them.

I understand that I am (my dependent) to continue all medications and other treatment modalities as they have been prescribed unless otherwise directed by the doctor who prescribed them. During the 25 hours or after if I (my dependent) get a life-threatening reaction from the allergen I (my dependent) was treated or from some other sources, I need to seek emergency help immediately from a physician qualified in emergency treatments, or by calling 911 or attending an emergency room at the local hospital. If I (my dependent) am suffering from severe allergic reactions to substances, I should consult an appropriate physician and take appropriate medication (such as medication to prevent itching, tissue swelling, fever, asthma, cough, pains, infections, mental irritability, violent behaviors, etc.) to keep my (my dependent's) symptoms under control while I (my dependent) am treating with NAET® treatments. This way NAET® treatments can be completed without interruption and once I (my dependent) complete the essential NAET® treatments for my (my dependent's) condition, I (my dependent) may experience reduction of my allergic symptoms and improved quality of life.

I understand that for 25 hours after the treatment, I (my dependent) am to avoid eating, touching, breathing and coming within 5 feet or more as it was instructed by my practitioner of the substance(s) that I (my dependent) have received treatment. If I (my dependent) come in contact with the substance(s) for which I (my dependent) am being treated, I realize that the treatment may not work and I (my dependent) may have a sensitivity reaction.

I understand that I (my dependent) must return after my 25 hours avoidance period preferably within 24 hours but at least within 7 days, to determine if I (my dependent) have cleared for the substance(s). I fully understand that I (my dependent) may still experience a reaction to the substance(s) of unknown severity if I (my dependent) come in contact with them if I (my dependent) did not clear them completely. If I (my dependent) did not clear them completely, I (my dependent) may require to repeat the procedure (more office visits at my cost) until I (my dependent) clear them satisfactorily.

After the successful completion of my NAET® treatments I give permission to the pain clinic to use my (my ward's) case study in educating other similar patients or accumulating data for research purpose without disclosing my real name or address. I give permission to take photograph of my (my ward's) diseased body part (e.g. in case of skin problem, etc.) to use in research or patient education purpose without disclosing my real name or address.

I have read or have had read to me the above statements and have had the opportunity to ask questions about its content and by signing below I agree to the terms and procedures.
